

Quartermaster Credentialing Program

ARE YOU CERTIFIED?

Overview

Credentialing bridges the gap between civilian work experience and Army work experience by providing "Industry Standard" certifications to our service members. It is a "People First" initiative that is used to develop talent for the Army while simultaneously providing Veterans with the technical skills for successful job placement after they leave the Army. For Fiscal Year 2022, the Army invested \$534,000 dollars into Quartermaster credentialing and 1,310 Soldiers have received certifications.

Value Added For All

- ✓ Produces Soldiers with "Industry Standard" certifications; increasing knowledge and skills within the force
- ✓ Increases recruiting and retention by maintaining a technically trained work force
- ✓ Improves capabilities and readiness of the force
- ✓ Validates the quality of military training and work experiences while bolstering technical competence
- ✓ Ability to cross-utilize Soldiers
- ✓ Enhances military career progression and unit capabilities
- ✓ Enables Soldiers and the Army to keep pace with ever changing industry practices
